The Dream Big– Be a Nurse Camp is designed to help address future healthcare needs by attracting high school students into the nursing profession. The goal of the camp is to increase students understanding of the educational preparedness required for the profession. It is also designed to boost self-confidence in students about attending college and to dispel any misconceptions and fears about college.

Activities include: Living the college experience by staying in college dorms, learning Basic Nursing Skills, Emergency Care (CPR & First Aid) , Labor and Delivery Nursing Care, Wound Care, and Medication Injections while working along side with current nursing students, Sheridan College nursing faculty, and Sheridan Memorial Hospital nurses. This camp will also have opportunities to tour various departments at our local health care facilities.
